Abstract (en)

[origin: WO2019057346A1] Automated baggage handling facility at an airport site for handling and delivering said baggage, the baggage being transported along routes from a collection point to a delivery point. Baggage transportation is carried out by means of a fleet of automated autonomous vehicles each provided with a rechargeable autonomous energy source and an electronic processing and control unit provided with means for communicating with a fleet management system incorporating all of the automated autonomous vehicles of the site.
