Abstract (en)
[origin: WO2019120955A1] The invention relates to a plug connector (100) for providing an electric connection, having: a collective seal (10) with at least one passage opening (11), and at least one electrically conductive plug contact (30) which can be guided through the at least one passage opening (11) in the collective seal (10). According to the invention, the plug contact (30) is formed with an assembly aid (40) in order to support the plug contact (30) when the plug contact is guided through the passage opening (11) in the collective seal (10).
