Abstract (en)

[origin: EP3730427A1] The present invention relates to a functional water bottle with ice forming core and an ice making tool, the water bottle comprising: a container body having one side opened and closed by means of a lid, for receiving fluid in a cylindrical form; and an ice holder coupled to one side of the container body and extending toward the inside of the container body, for holding ice, wherein the ice holder holds the ice in such a manner that the ice holder may be inserted into or taken out of the container body.
