Abstract (en)
[origin: WO2019129362A1] The aim of the invention is to further improve the handling of a hard-surface cleaning device, in particular in the form of a window cleaning device, having a cleaning surface and a liquid application device for applying liquid to a surface to be cleaned, which cleaning surface is designed to be applied to and to be moved over the surface to be cleaned and which liquid application device comprises at least one liquid outlet for dispensing cleaning liquid onto the surface to be cleaned. This aim is achieved, according to the invention, in that the at least one liquid outlet is arranged or formed in a region surrounded by the cleaning surface.
