Abstract (en)

[origin: WO2019133936A1] The present invention relates to a biocompatible, foldable, thin profile, low mass and high surface area, chitosan dressing, optionally modified with catechol, and suitable for treating bleeding in a physiological environment, e.g., gastrointestinal tract, bladder (in particular in connection with the TURP procedure). The characteristics and structures of the chitosan dressing are provided. Methods of making and using the chitosan dressing are also provided.
