Abstract (en)
[origin: WO2019135686A1] A plate for installing the filter bag in a vacuum cleaner has a plastic body (1) with a hole (3) and spacer plates (4) and a bolt (2) with a hole (13). The body (1) is equipped with pivotable mounting wings (5). The mounting wings (5) and the spacer plates (4) are provided with latches (6). The bottom part of the body (1) has an excision (7). The thickness of the body (1) on the sides of the excision (7) is smaller than in the remaining part of the body (1). The spacer plates (4) are equipped with upper stops (8), and the body (1) has bottom stops (9) at the bottom. In the bottom part of the body (1) there are assembly cutouts (10), and on the sides of the body (1) between the hole (3) and the excision (7) holes (11). The plate has four process sockets (12) on the sides. The bolt (2) below the hole has a crimps (14). The lower part has a lower tenon (15) and lateral tenons (16), and in the upper part, stops (17) and a handle (18).
