Abstract (en)

[origin: CA3083511A1] The invention relates to a device (8) for deflecting links intended to equip a turret equipped with a weapon with a dual-feed for ammunition belts formed by links. This device is characterised in that it comprises a deflector flap (9) that is intended to be disposed between two orifices for ejecting links out of the turret, which flap is intended to be connected to the weapon by a fixing means comprising a ball joint connection (12) disposed towards the front of the weapon, and a horizontal slide connection (13) disposed towards the rear of the weapon. The invention also relates to a turret equipped with such a deflector.
