Abstract (en)
The present invention relates to an assembled shower room, and the shower room comprises a shower tray, a top border, a bottom border fixedly arranged on the shower tray and a glass plate assembly arranged between the top border and the bottom border, wherein the glass plate assembly comprises a function plate, first fixed glass plates connected to two sides of the function plate, second fixed glass plates connected to the other sides of the first fixed glass plates, and a movable glass door; the function plate, the first fixed glass plates, the second fixed glass plates and the movable glass door are connected end to end to form a shower area. The assembled shower room of the present invention has the beneficial effect of being able to be installed in a modular way, so that the shower room is simplified in installation steps and reduced in installation difficulty.
