Abstract (en)

[origin: WO2019138202A1] The invention relates to a composition comprising: - (A) a copolymer with rigid blocks and flexible blocks (TPE), - (B) a non-crosslinked polysiloxane silicone, preferably a non-crosslinked organopolysiloxane, - optionally, (C) a compatibilizing agent improving the compatibility between the TPE and the silicone, said compatibilizing agent (C) being selected from among a polyolefin or a mixture of several polyolefins.
