Abstract (en)
[origin: WO2019141528A1] The invention provides a particulate laundry detergent composition comprising: a) from 3 to 60% (by weight based on the total weight of the composition) of one or more detergents selected from non-soap anionic surfactants, nonionic surfactants and mixtures thereof; b) from 0.01 to 1% (by weight based on the total weight of the composition) of a fragrance formulation (f1) which is in the form of free droplets dispersed in the composition; c) from 0.01 to 1% (by weight based on the total weight of the composition) of a fragrance formulation (f2) which is entrapped within discrete polymeric microparticles dispersed in the composition; in which the total amount of fragrance formulation (f1) and fragrance formulation (f2) ranges from 0.05 to 1.5% (by weight based on the total weight of the composition); and in which the weight ratio of fragrance formulation (f1) to fragrance formulation (f2) in the composition ranges from 60:40 to 30:70.
