Abstract (en)

[origin: WO2019170229A1] The invention relates to a module (201) of a modular multilevel converter (1) comprising a first power semiconductor component (202), a second power semiconductor component (206), and a cooling device (229) for the first and the second power semiconductor components (202, 206), the cooling device (229) comprising a coolant inlet (231) and a coolant outlet (232) for a coolant (70). The module also comprises a first valve (234) for closing the coolant inlet (231).
