Abstract (en)
[origin: WO2019141368A1] Method for outputting an audio signal (AS) reproducing at least part of a piece of music containing part of at least one main voice, in particular a singing voice, into an interior (4) forming part of a passenger compartment (2) of a motor vehicle (3) via an audio output device (7) comprising a left and a right audio output channel (5, 6), comprising the steps of: – providing an audio signal (AS) reproducing at least part of a piece of music containing at least one main voice, – extracting an audio signal component (AS.2), containing the at least one main voice, of the audio signal (AS) from the audio signal (AS), – attenuating the audio signal component (AS.2) containing the at least one main voice, – outputting the audio signal via the left and right audio output channels (5, 6) of the audio output device (7), wherein the audio signal component (AS.2) containing the at least one main voice is output in attenuated fashion.
