Abstract (en)

[origin: EP3742063A1] The present disclosure provides an air conditioning equipment, a method for controlling an air conditioning equipment and a control device. The method for controlling the air conditioning equipment includes the following operations: determining a preset scene mode, the preset scene mode being a mode for simulating a preset environment by controlling an operation of the air conditioning equipment (S1); and controlling the air conditioning equipment to operate according to the preset scene mode (S2).
