Abstract (en)

[origin: WO2019170268A1] The invention relates to a gallery rail profile (1) for hanging an object, in particular a picture, having: a first profile sub-section (2) for attaching a lamp and a second profile sub-section (3) for hanging an object, wherein the profile sub-sections (2, 3) each have an access opening (4, 5) in the cross-section, wherein the access opening (4) of the first profile sub-section (2) is oriented in the opposite direction to the access opening (5) of the second profile sub-section (3). The invention further relates to a rail system (20) having a gallery rail profile (1).
