Abstract (en)
[origin: WO2019154532A1] The invention relates to a switch element for a step switch comprising a vacuum interrupter (V), an actuating device, and a guide device (F). The vacuum interrupter (V) according to the invention comprises a movable contact (K1), a plunger (ST) connected to the movable contact (K1), and a housing. The movable contact (K1) is arranged in the interior of the housing. The actuating device is designed to actuate the plunger (ST). The guide device (F) is arranged outside the housing and is fixed to the actuating device. The guide device (F) encloses the housing at least in part. At least one partial region of the guide device (F) contacts the housing.
