Abstract (en)

[origin: WO2019154977A1] The invention relates to a cigarette package comprising an outer packaging (10) in the form of a flip-top box and an inner packaging (25) in the form of a foil packaging, with an opening aid arranged in the region of the inner end wall (30) of the inner packaging (25) and an adjacent region of an inner front wall (27), more specifically with an opening flap (31) for opening and closing a dispensing opening of the inner packaging (25) multiple times. A sticker (38) with lettering - information, decoration, advertising - is fixed releasably to the outer side in the region of the opening flap (31), in such a way that the sticker (38) can be, or has to be touched when the opening flap (31) is actuated.
