Abstract (en)

[origin: WO2019158273A1] The present invention relates to an ink transfer medium (1), in particular a printing blanket (1), in particular a printing blanket (1) for offset printing, very particularly a printing blanket (1) for dry offset printing, having a top layer (10) with a printing side (10a), wherein the top layer (10) is configured to transfer an ink by means of the printing side (10a), and having a contact layer (12) with a contact side (12a), wherein the contact layer (12) is configured to be arranged on a surface of a flat body, wherein the contact side (12a) of the contact layer (12) is arranged so as to face away from the printing side (10a) of the top layer (10). The ink transfer medium (1) is characterized in that the contact side (12a) of the contact layer (12) is of polished configuration.
