Abstract (en)

[origin: CN112185236A] The invention relates to a security label having a multi-layer first unsealing proof. The security label has a layer structure with a first and a second colour layer (105, 205, 305 and 106, 206, 306) and a first and a second separating paint layer (104, 204, 304 and 108, 208, 308); at least one security code (102, 302, 304) can be read in the case of a first closure of the security label (100, 200, 300), a second security code (107, 207, 307) can only be read after opening the first unsealing proof, and the second security code (107, 207, 307) is arranged between the first or second separation paint layer (104, 204, 304 or 108, 208, 308) and the second color layer (106, 206, 306), and the first and second security codes (102, 202, 303) can be printed simultaneously.
