Abstract (en)
[origin: WO2019170790A1] The present invention relates to yeast beta glucans for increasing the acetate concentration in the distal colon of a patient. According to another aspect, the present invention relates to yeast beta glucans for use in a method of treating or preventing a condition selected from overweight and obesity in a human or animal patient in need thereof. According to yet another aspect, the present invention relates to an alimentary product, or a food supplement, comprising yeast beta glucan and/or starch. According to another aspect the present invention relates to a method for increasing the acetate concentration in the distal colon of a patient.
