Abstract (en)

[origin: WO2019171001A1] The invention relates to the use of a mixture as a dielectric fluid, said mixture comprising a composition A comprising dibenzyltoluene and benzyltoluene, for increasing the service life of a transformer. The invention also relates to a mixture comprising said composition A with at least one ester and optionally at least one additive. The invention further relates to a transformer comprising said composition A or a mixture comprising said composition A with at least one ester and optionally at least one additive.
