Abstract (en)

[origin: WO2019156640A1] The object of the invention is an assembly of telescopic tubes configured to move a washing/drying nozzle in container washing machines. The assembly configured to move a washing/drying nozzle (5) in container washing machines of the invention is represented by two telescopic tubes (1, 2) and a shifting mechanism (3), wherein, while in use, the internal parts (1c, 2c) of the telescopic tubes (1, 2) are pushed by means of the movable part of the shifting mechanism (3) and the vertical side guides (4) into a closed chamber in the interior of a washing machine, while the connecting parts (1a, 2a) of the telescopic tubes (1, 2) remain firmly fastened on the immovable part of the shifting mechanism (3).
