Abstract (en)

[origin: WO2019174989A1] The invention relates to a surge arrester comprising a tubular housing and an end fitting, which is connected to one end of the housing and on which a column having at least one electrical resistor is arranged, a support means abutting the inner face of the tubular housing in the region of the end fitting, characterised in that the support means comprises an opening in the longitudinal direction of the surge arrester, into which opening a pressure means is inserted. The invention further relates to a method for installing a surge arrester.
