Abstract (en)  
A water-bearing household appliance (1), in particular a dishwasher or washing machine, with an automatic dosing system (20) and a dosing unit (100), wherein the automatic dosing system (20) is configured for automatically dosing a dosing amount (122) of a solid detergent from the dosing unit (100), the dosing unit (100) comprising a storage cartridge (110) for storing a bulk (112) of the solid detergent, wherein the storage cartridge (110) comprises a reversibly deformable container (114) with an outlet (116), wherein the automatic dosing system (20) is configured for deforming the container (114) according to a predefined pattern in time, such that detergent of the bulk (112) is transported towards the outlet (116), and a dosing device (120) is attached to the storage cartridge (110) on the outlet (116) for separating the dosing amount (122) from the bulk (112) and releasing the separated dosing amount (122).
