Abstract (en)

[origin: CN112297621A] The invention relates to automatic operation menu guidance in a color-assisted manner, in particular to a printing machine (1) having a printing unit (2), a computer (6) and a display device (5), the printing unit (2) having an optical signaling device (7) which is connected to the computer (6), and the computer (6) being connected to the display device (5). The invention is characterized in that the printing machine (1) is designed such that the computer (6) displays the operating state of the printing machine (1) on the display device (5), said display being adapted in color to the display of the operating state on the optical signaling device (7) of the printing unit (2).
