Abstract (en)  
[origin: WO2019197576A1] A conveniently enabled securement system including a portable encasement such as a backpack having locking and security features. The portable secure encasement is configured for transporting goods from place to place while ensuring their security throughout, while having a simple and efficient configuration for securing the contents within the encasement and optionally for securing the encasement itself at each location travelled to.
