Abstract (en)

[origin: WO2019197133A1] The invention relates to a pull-out guide (8) comprising at least two rails that can be moved in relation to each other, wherein a first attaching means for attaching a pushing element of a first drawer system (3) is provided on a movable rail (10). A second attaching means at a distance from the first attaching means is provided on the movable rail (10) for attaching a pushing element of a second drawer system (52), and either a pushing element of a first or a second drawer system (3, 52) can be attached to the movable rail (10). By providing first and second attaching means on the movable rail (10), the pull-out guide (8) can be used in many ways and different drawer systems can be mounted on the movable rails (10).
