Abstract (en)

[origin: WO2019185120A1] The invention relates to a hand press (1) for pressing a packaging (9). The hand press (1) has a housing (8) which has at least one first opening (8a) for introducing the packaging (9) and at least one second opening (8b) for disposing of the packaging (9). The hand press (1) additionally has a press device (15), which is arranged substantially within the housing (8) and has a first press surface (15a), and an actuation device (5), which is connected to at least one lever (19) via a rotational shaft (26), said lever being mounted in a rotatable manner together with the press device (15).
