Abstract (en)

[origin: EP3779089A1] A skylight window frame for being installed in or on a roof of a building, a system comprising a skylight window and a method for fastening a window frame. The present invention relates to a skylight window frame for being installed in or on a roof of a building, the skylight window frame comprising a pre-formed hole adapted to receive a fastener for attaching the window frame to the roof. The invention further relates to a system comprising skylight window with such a skylight window frame and a method for installing a skylight window with such a frame.
