Abstract (en)  
The present disclosure provides a heat not burn (HNB) consumable comprising an aerosol-forming substrate having upper and lower surfaces spaced by longitudinally-extending transverse surfaces. At least one of the surfaces (e.g. each of the transverse surfaces) is a curved or rounded surface (or has a curved/rounded portion) and the substrate has a greater width than depth. The upper and lower surfaces may be planar. The substrate may be extruded.
