Abstract (en)
A container (100) for aerosol-generating articles is provided. The container comprises a housing (102) having an opening (104) and a hinged lid (106) movable relative to the housing. The hinged lid is movable relative to the housing between an open position in which the lid exposes the opening and a closed position in which the lid covers the opening. The hinged lid comprises a cutting means (108) for cutting an aerosol-generating article.
