Abstract (en)

[origin: WO2019207544A1] An elastic laminate sheet according to an embodiment includes an elastic film, a nonwoven fabric laminated on at least one surface of the elastic film, and a pressure bonding line where the nonwoven fabric and the elastic film are pressure-bonded and recessed. The pressure bonding line extends in one direction diagonally intersecting with an elastic direction of the elastic film, a plurality of pressure bonding lines is provided side by side in a lateral direction orthogonal to the one direction, and an inclination angle of the one direction with respect to the elastic direction is equal to or larger than 15° and equal to or smaller than 75°.
