Abstract (en)
[origin: WO2019215279A1] A chilled multilayer food product is disclosed. The chilled multilayer food product (1) comprises a first layer (2), a second layer (4) and a third layer (3). The first layer (2) is a dairy layer. The second layer (4) is a pastry layer comprising from 5% to 20% of hulled millet grains by weight of the pastry layer. Finally, between the first layer (2) and the second layer (4), there is the third layer (3) which is a water-barrier layer. The invention also relates to processes for preparing such chilled multilayer food product (1) and to uses of millet grains in a cooked pastry as crunchy inclusion.
