Abstract (en)

[origin: WO2019214945A1] The invention relates to an air outlet system for a portable dry vacuum cleaner, via which the intake air sucked in by the dry vacuum cleaner can be expelled into the environment as exhaust air, wherein the air outlet system has an accommodation bay which is to be disposed in a housing of the dry vacuum cleaner and in which optionally an air cleaner cartridge or an exhaust adapter may be accommodated, with the exhaust adapter having an exhaust fitting onto which a blower hose connects and the air cleaner cartridge being free from an outlet fitting of this kind.
