Abstract (en)
[origin: EP3569225A1] The present invention relates to a solid dispersion containing ritonavir and a cationic polymer, and to the use of the solid dispersion for the preparation of a pharmaceutical composition for oral administration, which is preferably a tablet. The pharmaceutical composition is intended for the treatment of HIV and may additionally contain a HIV protease inhibitor selected from darunavir, lopinavir, atazanavir, tipranavir and saquinavir.
