Abstract (en)
[origin: WO2019224327A1] The invention relates to a food product, in particular a meat product, containing a special flavor-active substance, to a use of raw materials from meat, or of extracts of such raw materials from meat, as a flavor-active substance, and to a method for producing a food product containing a flavor-active substance, in particular a meat product containing flavor carriers. The invention relates to food products of this type, in particular meat products selected from the group consisting of meat preparation, raw sausage, scalded sausage, cooked sausage, cooked cured meats, raw cured meats, aspic and brawn, which contain (i) at least partially fermented meat, or (ii) an extract of at least partially fermented meat, as a flavor-active substance in the food product.
