Abstract (en)

[origin: CN112553771A] The invention relates to a yarn splicing device (1) for joining a first thermoplastic textile yarn (7) to a second thermoplastic textile yarn (8). According to the invention, the yarn splicing device(1) has a pressure device (3) for applying a mechanical pressing force to a joining yarn consisting of the first thermoplastic textile yarn (7) and the second thermoplastic textile yarn (8), and an energy supply device (4) for joining the joining yarn when the joining yarn is placed in the pressure device (3). The invention also relates to a warp knitting machine having the yarn splicing device (1) according to the invention.
