Abstract (en)
[origin: WO2019229585A1] The invention relates to an assembly (10) for loading parts (30) to be treated into a single-side or double-side treatment machine, comprising:- a part holder (12) in the form of a plate for holding at least one part to be treated, comprising a second side and first side, said first side being flat, and said part holder (12) delimiting at least one through-hole forming a cell (14) for housing at least one part (30) to be treated, and- a film (20) mounted on the first side of the part holder (12) opposite said through-hole (14), allowing said part (30) to be treated to be held at least during the loading step.
