Abstract (en)

[origin: WO2019223964A1] The invention relates to a winding device (30) for winding up and unwinding lines (50) of a stunt kite, paraglider or parachute (60), having at least three reels (11) for receiving at least one line (50) of the stunt kite, paraglider or parachute (60) each. According to the invention, at least two reels (11) have a separate reel drive (14) for winding up and unwinding the line (50) received on the reel (11).
