Abstract (en)

[origin: US2019376178A1] Described herein are compositions and methods using same for forming a silicon-containing film such as without limitation a silicon carbide, silicon nitride, silicon oxide, silicon oxynitride, a carbon-doped silicon nitride, a carbon-doped silicon oxide, or a carbon doped silicon oxynitride film on at least a surface of a substrate having a surface feature. In one aspect, the silicon-containing films are deposited using a compound comprising a carbon-carbon double or carbon-carbon triple bond. The plasma source employed comprises both a remote plasma source and an in-situ plasma source operating in combination.
