Abstract (en)

[origin: WO2019224846A1] The present invention relates to a restraining fabric having at least one stretch portion (4) comprising a plurality of stitches of at least one ground yarn (2) and at least one elastic yarn (5), wherein, next to at least part of said stretch portion (4), a restraining portion (8) extends in which first groups (G1) of one or more first stitches (P1) comprising said at least one main yarn (3) alternate with second groups (G2) of one or more second stitches (P2) comprising a restraining yarn (9), such that at each of said first stitches (P1) a floating length (10) of said restraining yarn (9) extends and at each of said second stitches (P2) a floating length (10) of said main yarn (3) extends. The invention also concerns restraining garments containing said fabric and the method of manufacturing the fabric and garments.
