Abstract (en)  
[origin: WO2019238164A1] The invention relates to a motor vehicle door lock which is equipped with a body-side motor vehicle door lock and a bonnet-side or door-side locking bolt bracket (3), or vice-versa. Furthermore, at least one opening/retracting drive (4) for a locking mechanism (1, 2) and a handle (5) for manual emergency opening of the locking mechanism (1, 2) are provided in the motor vehicle door lock. According to the invention a locking element (13), the position of which is checked with the aid of at least one sensor (26), is associated with the handle (5).
