Abstract (en)

[origin: WO2020052779A1] The invention relates to a storage device (1) comprising at least one storage container (2) which has an upper handle on an upper side (5) and a front handle (52) mounted on a front side (6) such that it can swivel about a swivel axis (51). The front handle (52) can be swivelled optionally into a non-use position (52a) swivelled towards the container housing (15) or into a use position (52b) swivelled away from the container housing (15). The front handle (52) is assigned a front blocking device (68), which is designed for unswivellably detachably blocking the front handle (52) in the non-use position (52a) thereof.
