Abstract (en)

[origin: WO2020002352A1] The invention relates to a method for producing a moulded body, according to which, in step i), a layer of a sinter powder (SP) containing at least one multivalent alcohol, inter alia, is provided, and in step ii), the layer provided in step i) is exposed. The invention also relates to a method for producing a sinter powder (SP), and to a sinter powder (SP) that can be produced according to said method. The invention further relates to the use of the sinter powder (SP) in a sintering method, and to moulded bodies that can be obtained according to the claimed method.
