Abstract (en)

[origin: WO2020002265A1] The invention relates to an assembly of an exhaust hose (2) provided with a flared end (3) around which a clamping collar (4) is mounted, and of a protective device (5) for protecting said hose (2). According to the invention, the protective device (5) comprises a housing provided with two parts (15, 16) which are articulated about a pivot axis (17), the two articulated parts (15, 16) being able to be folded over against one another by pivoting in order to surround the entirety of the hose (2), of the flared end (3), and of the collar (4).
