Abstract (en)

[origin: WO2020007883A1] The invention relates to a jewellery item (10) comprising: - at least one cable (12) arranged to form a support mesh (14), - a plurality of decorative elements (16) threaded on said at least one cable (12) and shaped to structure the support mesh (14) according to a predetermined three-dimensional profile. The invention also relates to a jewellery assembly comprising at least two jewellery items (10) according to any one of the preceding claims and means for securing the support meshes together.
