Abstract (en)

[origin: EP3819440A1] Structure (1) for the covering of surfaces, comprising mainly a first panel (2) and a second panel (3), each having a main portion (8) and, on opposite sides of the main portion (8), a first hooking portion (6), and a second hooking portion (7), at least partially shaped at the first hooking portion (6). In a configuration of use, the second hooking portion (7) of the second panel (3) is applied on the first hooking portion (6) of the first panel (2) according to a unique and predetermined positioning. The structure (1) also comprises a fixing bracket (4) configured to interpose, in the configuration of use, between the first panel (2) and the second panel (3). Finally, the structure (1) comprises an anchoring bracket (5) shaped so as to define a mounting portion (20) on which the fixing bracket (4) is applicable, in use.
