Abstract (en)

[origin: WO2020013684A1] The invention concerns composition comprising a fucosylated human milk oligosaccharide, preferably 2'-fucosyllactose, for use in the treatment of virus induced diarrhea. The composition may be an infant formula. The use of a fucosylated human milk oligosaccharid for the preparation of a nutrituional composition and the treatment of virus induced diarreha in a human subject are also claimed.
