Abstract (en)
The present invention relates to a panel (1) for furniture which is characterized in that it incorporates at least one housing seat (2) suitable for removably housing a maneuvering tool (20) for maneuvering the furniture hardware. According to a first embodiment of the present invention, the tool (20) can be manually extracted from said at least one housing seat (2), whereas according to an alternative embodiment, also preferred, the panel (1) is characterized in that it further comprises, housed inside said seat (2), a device (10) suitable for moving said operating tool (20) with respect to said seat (2). Said device (10) advantageously comprises a push-pull mechanism (15) .
