Abstract (en)

[origin: EP3823299A1] Disclosed are a method for controlling the volume of a wireless headset, a wireless headset and a mobile terminal. The method comprises: when the mobile terminal is connected to a wireless headset in an in-ear state, acquiring a target play volume interval of the wireless headset; adjusting the play volume of the wireless headset within the target play volume interval; when volume determination information from the wireless headset is received, determining that the play volume of the wireless headset at the moment the volume determination information is received is a target playvolume value; and adjusting the play volume of the wireless headset to be the target playvolume value. The play volume of a wireless headset suitable for a user can be automatically and quickly set.
