Abstract (en)

[origin: WO2020016084A1] The invention relates to a cooking appliance (1) comprising a shell (2) provided with a contour (3) and incorporating a heating system (8) that is arranged inside the shell (2) and is supplied by a power supply circuit connected to a power supply cord and a cooking chamber (6) arranged inside the shell. The cooking appliance comprises an external housing (13) arranged on a wall (4) of the contour of the shell and an electrical terminal block that is accommodated in the external housing and ensures the electrical connection between the power supply circuit and the power supply cord.
